

Hillcrest MathCounts Team in Regional Competition

The 2009-2010 MathCounts team from Hillcrest Middle School participated in February's Southwest Connecticut regional competition at Fairfield University, finishing in sixteenth place among the many competing schools.

The team members were drawn from the MathCounts Club that meets regularly after school. In its eighth year under Ms. Malathi Muralidharan's supervision, the club earned Gold Level status in the MathCounts program.

Students interested in challenges beyond those provided in a classroom setting who were involved in the club's activities during the year included eighth graders Miles Buroker, Jacob Cohen, Dixon Jin, and Dilpreet Sood; seventh grade students Alex Borders, Rohit Kandala, and Daniel Rouleau; and sixth graders Rishav Jauhri, Nikaash Pasnoori, Aravind Sureshbabu, Stefan Vo, and Shravan Wadhwa.
