

MathCounts Team Fares Well at Fairfield Regional

Hillcrest Middle School earned 11th place in the Southwest Connecticut MathCounts Chapter competition at Fairfield University on February 12, 2011.

Six-grade student Eliza Khokhar and eighth graders Dan Rouleau, Madhuvanti Sridhar, and Kevin Zhang comprised the school's team, which prepared under the guidance of advisor Malathi Muralidharan.

In addition, sixth-graders David Bian and Anubhav Dhar, seventh-grader Alex Borders, and eighth-grade student Rohit Kandala represented the school as they participated in the individual competition.

Eliza Khokhar placed in the top 25th percentile and was eligible to participate in the State MathCounts competition at University of Hartford on March 12.

Editor's Note: The ACE Foundation has provided funding to enable Hillcrest students to utilize various resources for classroom exercises and weekly team meetings as they develop their mathematics skills and prepare for the MathCounts competitions in which selected students face teams from other schools.
